Pendidikan karakter di pesantren memiliki peran yang sangat penting dalam membentuk integritas santri. Nilai tauhid yang menjadi dasar keimanan dan moralitas diharapkan dapat membentuk sikap jujur dan bertanggung jawab. Namun, data menunjukkan bahwa banyak pelajar di Indonesia masih terlibat dalam praktik kecurangan, seperti menyontek. Hal ini menjadi tantangan serius bagi dunia pendidikan, terutama di lingkungan pesantren, di mana nilai-nilai keislaman sangat ditekankan. Penelitian ini bertujuan untuk mengeksplorasi peran guru dalam menanamkan nilai tauhid kepada santri kelas 5 di Salafiyah Ula Jamilurrahman Bantul, serta menganalisis faktor-faktor yang mendukung dan menghambat penanaman nilai tauhid dalam upaya meningkatkan integritas mereka.

Penelitian ini menggunakan pendekatan kualitatif dengan metode studi kasus, populasi dalam penelitian ini terdiri dari 49 santri kelas 5, dan dari populasi tersebut diambil 5 sampel dari santri, teknik pengumpulan datanya meliputi wawancara dengan kepala madrasah, kepala bidang kurikulum, guru, dan santri, observasi perilaku santri, dan dokumentasi sumber yang relevan.

Hasil penelitian menunjukkan bahwa guru berperan vital dalam menanamkan nilai tauhid melalui metode pengajaran seperti ceramah, tanya jawab, dan praktik ibadah, dengan strategi motivasi yang mengaitkan pemahaman tauhid dengan harapan akan surga, meskipun tantangan seperti variasi tingkat pemahaman santri dan kondisi kelas tetap ada. Penanaman nilai tauhid terbukti efektif dalam meningkatkan integritas santri, yang tercermin dalam perilaku mereka sehari-hari, sementara dukungan dari lingkungan, termasuk orang tua dan masyarakat, turut berkontribusi pada keberhasilan ini.

ABSTRACT

Priyo Subekti. 211371069. The Role of Teachers in Instilling the Value of Tawhid to Enhance the Integrity of Fifth Grade Santri at Salafiyah Ula Jamilurrahman Bantul. Thesis. Yogyakarta: Islamic Education Study Programme. Madani Yogyakarta Institute of Education Science, 2025.

Character education in pesantren plays a crucial role in shaping the integrity of santri. The value of tawhid, which serves as the foundation of faith and morality, is expected to cultivate a sense of honesty and responsibility. However, data indicates that many students in Indonesia remain involved in dishonest practices, such as cheating. This poses a serious challenge for the educational sector, particularly within pesantren environments, where Islamic values are heavily emphasised. This research aims to explore the role of teachers in instilling the value of tawhid among fifth-grade santri at Salafiyah Ula Jamilurrahman Bantul, as well as to analyse the supporting and inhibiting factors in the instillation of tawhid values in efforts to enhance their integrity.

This study employs a qualitative approach using a case study method. The population for this research consists of 49 fifth-grade santri, from which 5 samples were drawn. The data collection techniques include interviews with the head of the madrasa, the head of the curriculum department, teachers, and santri, as well as observations of santri behaviour and documentation of relevant sources.

The findings of the research indicate that teachers play a vital role in instilling the value of tawhid through teaching methods such as lectures, question and answer sessions, and religious practices, employing motivational strategies that link the understanding of tawhid with the hope of attaining paradise. Despite challenges such as varying levels of comprehension among santri and classroom conditions, the instillation of tawhid values has proven effective in enhancing the integrity of santri, as reflected in their daily behaviour. Furthermore, support from the surrounding environment, including parents and the community, contributes significantly to this success.
