This study aims to determine the role of mosque takmir in the implementation of the Al-Qur'an Education Park (TPA) at Al-Jannah Jepitu Mosque, Giriisubo District, Gunung Kidul Regency, as well as identify the supporting and inhibiting factors that affect the implementation of these activities. Mosque takmir has an important responsibility in prospering the mosque, one of which is through the implementation of non-formal education such as TPA. The involvement of takmir is urgently needed to ensure the continuity and effectiveness of religious activities in the community, including the teaching of the Qur'an to children as a form of character development and spirituality of the younger generation.

This study uses a qualitative descriptive method with a field study approach. Data was collected through interviews, observations, and documentation. The subjects of the study include mosque takmir, TPA administrators, students, guardians, and the surrounding community. Data analysis was carried out through data reduction, data presentation, and conclusion drawn, and its validity was tested using source and method triangulation techniques.

The results of the study show that the takmir of the Al-Jannah Mosque has an active role in the three main stages of landfill implementation, namely planning, learning implementation, and evaluation. In addition, a number of supporting factors were found, such as community support, strategic location, adequate infrastructure, and mosque infak funds. However, there are also inhibiting factors such as limited professional teaching staff, limited time, and the absence of a written curriculum. Nevertheless, the role of takmir in general has proven to be very significant in supporting the sustainability of the landfill and making the mosque a center of Islamic educational activities in the community.

Penelitian ini bertujuan untuk mengetahui peran takmir masjid dalam pelaksanaan Taman Pendidikan Al-Qur'an (TPA) di Masjid Al-Jannah Jepitu, Kecamatan Girisubo, Kabupaten Gunung Kidul, serta mengidentifikasi faktor-faktor pendukung dan penghambat yang memengaruhi pelaksanaan kegiatan tersebut. Takmir masjid memiliki tanggung jawab penting dalam memakmurkan masjid, salah satunya melalui penyelenggaraan pendidikan nonformal seperti TPA. Keterlibatan takmir sangat dibutuhkan untuk memastikan keberlangsungan dan efektivitas kegiatan keagamaan di lingkungan masyarakat, termasuk pengajaran Al-Qur'an kepada anak-anak sebagai bentuk pembinaan karakter dan spiritualitas generasi muda.

Penelitian ini menggunakan metode deskriptif kualitatif dengan pendekatan studi lapangan. Data dikumpulkan melalui wawancara, observasi, dan dokumentasi. Subjek penelitian meliputi takmir masjid, pengurus TPA, santri, wali murid, dan masyarakat sekitar. Analisis data dilakukan melalui reduksi data, penyajian data, dan penarikan kesimpulan, serta diuji keabsahannya menggunakan teknik triangulasi sumber dan metode.

Hasil penelitian menunjukkan bahwa takmir Masjid Al-Jannah memiliki peran aktif dalam tiga tahapan utama pelaksanaan TPA, yaitu perencanaan, pelaksanaan pembelajaran, dan evaluasi. Selain itu, ditemukan sejumlah faktor pendukung, seperti dukungan masyarakat, lokasi strategis, sarana prasarana yang memadai, dan dana infak masjid. Namun demikian, terdapat pula faktor penghambat seperti keterbatasan tenaga pengajar profesional, waktu yang terbatas, dan tidak adanya kurikulum tertulis.
