

## ABSTRAK

Furqon Firdaus, Kontribusi Penggunaan Metode Tahsin Bin Baz (MBB) Terhadap Peningkatan Kemampuan Bacaan Al-Qur'an Santri Kelas 2A *Salafiyah Wustho* Islamic Center Bin Baz Semester Ganjil 2023.

Skripsi ini membahas kontribusi penggunaan metode tahsin bin baz yang digunakan oleh pondok pesantren Islamic Center Bin Baz (ICBB) Yogyakarta sebagai standarisasi peningkatan bacaan Al-Qur'an santri ICBB. Tahsin adalah salah satu program unggulan di pondok ICBB guna memperbaiki bacaan Al-Qur'an santri maupun staf ICBB agar sesuai kaidah bacaan Al-Qur'an yang diturunkan oleh Allah *Subhānahu wa Ta'āla* kepada Rasulullah *Ṣallāhu 'Alaihi wa Salam*, kaidah bacaan Al-Qur'an memiliki 3 tahapan dasar yaitu *makhārijul hurūf*, *ṣifātul hurūf*, dan *itmāmul harakat*. dalam penggunaannya tahsin MBB memperhatikan 3 tahapan ini guna mencapai visi misi yang sesuai dengan pondok ICBB mencetak generasi Quraniy yang paham Al-Qur'an cara bacanya, isinya, kandungannya dan prakteknya.

Penelitian ini merupakan penelitian lapangan *field research* menggunakan metode kualitatif deskriptif dengan desain penelitian *pretest* dan *posttest* guna melihat kontribusi yang diberikan oleh Metode Tahsin Bin Baz Terhadap Peningkatan Kemampuan Bacaan Al-Qur'an Santri Kelas 2A *Salafiyah Wustho* ICBB, penilaian *pretest* dan *posttest* berdasarkan tes bacaan al-fatihah yang dinilai sesuai standar tahsin MBB dan dinilai oleh ustaz-ustaz yang sesuai standar MBB.

Hasil penelitian menunjukkan bahwa penggunaan tahsin metode bin baz (MBB) memberikan kontribusi yang sangat baik dan positif terhadap peningkatan kemampuan bacaan Al-Qur'an santri kelas 2A *Salafiyah Wustho* ICBB, sesuai dengan kaidah bacaan Al-Qur'an dan berdasarkan nilai *pretest* dan *posttest*. Saran untuk program MBB kedepannya adalah agar pihak pondok ICBB dan partisipan memperhatikan dengan baik keberlangsungan program MBB, seperti kedisiplinan, dan niat, dan mengkaji ulasan ulama Al-Qur'an dalam penggunaan nada di dalam bacaan Al-Qur'an yang banyak pendapat melarang penggunaannya.

Kata kunci : Al-Qur'an, Metode Tahsin, Kemampuan Bacaan Al-Qur'an.

## ABSTRACT

Furqon Firdaus, Contribution of Using the Tahsin Bin Baz (MBB) Method to Increasing the Al-Qur'an Reading Ability of Class 2A Students of the *Salafiyah Wustho* Islamic Center Bin Baz Odd Class 2023.

This thesis discusses the contribution of using the tahsin bin baz method used by the Islamic Center Bin Baz Islamic boarding school (ICBB) Yogyakarta as a standardization for improving the reading of the Al-Qur'an for ICBB students. Tahsin is one of the superior programs at the ICBB boarding school to improve the reading of the Al-Qur'an by ICBB students and staff so that it conforms to the rules of reading the Al-Qur'an revealed by Allah *Subhānahu wa Ta'āla* to Rasulullah *Ṣallahu 'Alaihi wa Salam*. The rules for reading the Qur'an have 3 basic stages, namely makhārijul hurūf, ṣifātul hurūf, and itmāmul harakat. In its use, MBB tahsin pays attention to these 3 stages in order to achieve a vision and mission that is in accordance with the ICBB boarding school to produce a generation of Quranic people who understand how to read the Qur'an, its content, content and practice.

This research is field research using descriptive qualitative methods with a pretest and posttest research design to see the contribution made by the Tahsin Bin Baz Method towards improving the Al-Qur'an Reading Ability of Class 2A *Salafiyah Wustho* ICBB Santri, pretest and posttest assessments based on reading tests al-fatihah which is assessed according to MBB tahsin standards and assessed by ustaz who comply with MBB standards.

The results of the research show that the use of the tahsin bin baz (MBB) method provides a very good and positive contribution to improving the Al-Qur'an reading ability of class 2A *Salafiyah Wustho* ICBB students, in accordance with the rules of Al-Qur'an reading and based on pretest and posttest scores. Suggestions for the MBB program in the future are for the ICBB boarding school and participants to pay close attention to the sustainability of the MBB program, such as discipline and intention, and examine the reviews of Al-Qur'an scholars regarding the use of tone in reading the Al-Qur'an, which many opinions prohibit its use.
